## THE BIG BRITON IS A WELCOME GUEST AT HEAD OF HER CLASS

Visit of Lord Charles Beresford  
Made an Event.

SAYS HE WILL CALL AGAIN

Charmed to be in Hawaii Once  
More—Entertained by Britishers  
and Americans—Party.

(From Saturday's Daily.)

The British colony was in the sev-  
enth heaven of delight all of yesterday  
and the memory of the day and of this  
morning to 9 o'clock will be fresh and  
green for many a year. The Ameri-  
cans were a close second in giving at-  
tention and doing honor to Lord Chas.  
Beresford. Conspicuous in the co-op-  
erate section were such men as Presi-  
dent Dole, Attorney General Smith,  
Special Agent Sewall, Consul General  
Haywood, J. B. Atherton, E. D. Tenney.

and made a bit of local history. He  
was here as officer later in a British  
ship. He has always cherished most  
fondly his recollections of Hawaii and  
her people and was enthusiastically  
glad to be on these shores again. At the  
British Consulate last evening Lord  
Charles said it was his intention to  
come to the Islands next winter with  
Lady Beresford and remain for some  
time. "Yes, I mean this," said he with  
one of his most gracious smiles. "My  
wife, when I get through telling of this

place again, and when she hears what

Mr. Grey, my secretary, has to say,

will be eager for the visit, and then it's

only a matter of twenty days travel

and it's worth the journey. I can

think of no more alluring place for one

desiring to escape the rigors of a win-  
ter on our home island."

Lord Chas. Beresford, as everyone

Friday forenoon:

MY LORD:

Britons, by birth or descent, hailing from many climes over

which Victoria's flag of empire waves, and proud of the loving

ties that will ever bind us in heart-loyalty to our mother land,

we greet you, my Lord, with cordial British welcome and with our

Hawaiian Aloha.

Your personality, in war, and in peace, has been impressed

upon the noble annals of the wise and beneficent reign of Her

beloved Majesty, Queen Victoria, whom God preserve.

We, whose happy homes are in this much favored land,

recently acquired by the United States of America, appreciate

more keenly than others perhaps, the desirability and ad-  
vantages of a compact union of sentiment and interest be-  
tween the two great English speaking nations whose pros-  
perity so materially effects our own, and especially so in con-  
nection with the commerce of the ancient empires of the  
Orient which you have recently visited.

LORD CHARLES BERESFORD.  
(Photo by Davey on Board S. S. America Maru.)

The "fighting Beresfords" are one of the famous families of Eng-  
land. The head of the house is the Marquis of Waterford, but the  
present bearer of the title is a boy of twenty-one, and the men who do  
most to keep the name of Beresford before the world are his uncles,  
Lord Charles and Lord William, titled by courtesy. The latter is  
well known as a soldier and a sportsman, and to Americans as the  
husband of the former Duchess of Marlborough, nee Miss Price, of  
New York. The former is one of the most popular men in England,  
and recently made a somewhat sensational reappearance in public  
life by seeking an election to Parliament as a Conservative in a con-  
stituency that had been a Liberal stronghold, and by winning, after  
an exciting campaign, with just eleven votes to spare.

Lord Charles Beresford is a sailor by profession, and has seen  
plenty of active service both afloat and ashore. The best remem-  
bered episode of his naval career was his command of the gunboat  
Condor at the bombardment of Alexandria, when he took his ship so  
close under the guns of the Egyptian forts that the rebel gunners  
could not depress their muzzles low enough to hit him, and his  
daring elicited the signal of "Well done, Condor!" from the admiral  
of the British fleet. The Salisbury government's gratification at his  
recent political success may not be entirely unmixed, for Lord  
Charles is no doleful follower of party. He is a strong advocate of an  
active foreign policy, and an unswerving critic of the weak points in  
the British naval and military system. He declared recently that  
with international relations in their present critical state, a man of  
war should be building at every slip on the shores of England.

Lord Charles is in prominence just now as a commercial missionary  
to the Orient and as favoring a business (open door) union of Eng-  
land, America, Japan and Germany.

## World's Record Battleship Visit- ing Honolulu.

World's Record Battleship Visit-

BULL DOG OF YANKEE NAVY

Startling Performances at  
Steaming and Fighting.

COMMAND OF CAPT. BARKER

Made an Easy Run Over From  
Callao—Awaits Her Ser-  
vants—Sealed Orders.

(From Monday's Daily.)

EXTEND ALOHA.

The Advertiser suggests that  
ample mark be made of the visit  
of the Battleship Oregon. The  
"Bull Dog of the Navy," the  
Dragon of the Santiago fight, is  
worthy recognition by atten-  
tion to her officers and men.

The big battleship Oregon—the pride  
of the American navy—is anchored  
in the offing just outside the harbor. Cap-

CAPT. BARKER.

## BATTLESHIP OREGON, (BULL DOG OF THE U. S. NAVY), OFF HONOLULU HARBOR.

Tuesday or Wednesday. It is prob-  
able that the battleship with her two  
colliers, will sail from Honolulu to-  
gether.

The battleship Iowa had orders to  
proceed to Honolulu with the Oregon,  
but at the last moment it was discov-  
ered that her boilers were out of order  
and she steamed slowly to San Fran-  
cisco to undergo repairs. Unless her  
orders are countermanded, the Iowa  
will soon leave San Francisco for Ho-  
nolulu.

The officers of the Oregon knew nothing  
of the Philadelphia's movements.  
They had heard that she was to inter-  
cept the Oregon between Galapagos  
Islands and Honolulu. A recent dis-  
patch, however, stated the cruiser had  
just completed coaling and was to sail  
from San Diego on January 27 or 28  
for Apia, Samoa, touching at Honolulu  
for coal and fresh provisions, while en  
route. The same dispatch mentioned  
that owing to the foul condition of her  
bottom, the Philadelphia would not be  
able to reach her destination before the  
end of February.

The Oregon was launched in San  
Francisco on July 15, 1896. She was  
built by the Union Iron Works of that  
city. When war against Spain was de-  
clared the Oregon received orders to  
proceed around the Horn and report at  
Key West. She made a most remark-  
able trip under the command of Capt.  
Clark. Not a single piece of her ma-  
chinery was out of gear during all the  
many days of this long voyage.

Upon her arrival at Key West she  
was sent immediately into the Cuban  
campaign. When the signal was given  
by Admiral Schley to attack Cervera's  
escapable fleet, the Oregon was the only  
vessel really ready for action. But for  
her the Maria Teresa would have es-  
caped. Her work in the destruction of  
the Spanish fleet made her the pride of  
the navy. The Oregon is considered  
the best battleship in the world today.  
She still wears her war paint.

for the promotion of commerce and peace. With both working in harmony to that end I think the peace of the world would be assured. There has been a great advance of late in the friendly relations of Great Britain and America, and so long as such mutual sentiment prevails there is really no need of a formal alliance.

There was talk once of a desire of Great Britain to acquire the Hawaiian Islands. Since she has not

## A BEAUTIFUL WORK.

Viggo Jacobson, the pen artist, fairly excelled himself in engraving the address. It is rarely beautiful and truly artistic.

At the top of the left hand page appears the Waterford Arms—Lord Beresford being the eldest uncle of the present Marquis of Waterford—a very beautiful heraldic device. Then follow three shields, emblazoned respectively in the colors of the red ensign, representing the British Navy; the cross of St. George upon a white field, with the Jack, representing the Navy; and the third emblazoned green with the Harp in gold, for Ireland, the land of birth of Lord Charles. On the right hand page a shield with the colors of the Union Jack, for England, heads the list; then follow in the next two shields the Stars and Stripes and the Hawaiian colors; and for a tail-piece to the whole the glorious design of the Royal Standard, surmounted by the crown of Britain and the blue ribbon of the Order of the Garter, the whole of which latter device is embellished with a symmetrical arrangement of the Rose, Thistle, Shamrock, etc. Some of the above described shields are cunningly made to appear as being suspended from a pair of golden tilting spears, such as were used in the early tournaments, and the banners fluttering from the head of these bear the motto of the Beresford family, viz: "NIL NISI CRUCE" (No dependence but in the cross.) The address is mounted in a case of Royal Red Moire Silk, made by Mr. Samson, of the Hawaiian Gazette Co.

done so, I am sure there is no nation that Britons would next prefer to own the islands than the United States. With regard to the native Hawaiians, I cannot say that I know very much about their position. It may be presumed, however, that they feel a degree of soreness over the change in the political conditions of their country. Nevertheless, looking back to my own country, not so very long ago, there was considerable soreness in Ireland over its union with Great Britain. Indeed, a good many Irishmen today think that the union is not entirely proper—that it should be "Great Ireland and Britain" instead of "Great Britain and Ireland." (Laughter.)

The future of Hawaii, gentlemen, I am confident is assured.

You have referred to my mission as being in the interest of commerce and peace. I think we may hope are long to see an alliance between Great Britain, the United States, Germany and Japan—not for selfish purposes, but for the realization of that commercial ideal which has been aptly condensed into the term, "the open door." It would be an alliance that would promote trade, which is the best means of preserving the peace of the world—that blessing that we all desire most devoutly.

## IT COMES ABOUT IN NATURAL WAY.

## Why New Two-Cent Stamps Are Red—Money is Made.

There was a mild sensation yesterday when the new two-cent postage stamps were placed on sale. It was noted at once that they were red in color—same as the fives—while the old twos, exhausted about three weeks ago, were brown.

Conjecture was rife on the change of hue and all sorts of yarns were soon flying about. Postmaster General Out was interviewed without delay by a representative of the Advertiser. The official said there was nothing surprising or unusual about or special about the advent of the new stamp. It was red instead of brown simply for the reason that regulations of the International Postal Union prescribed some months ago that after January 1, 1899, all two-cent stamps should be of the new color. The same regulation is for the five, now red here, to be blue, and the ones, now yellow, to be green.

Money has been made on the change of the twos and money is yet to be made. There will be more money than at present in prospect in the other varieties, unless the United States takes over the postoffice before the year ends.

The two-cent stamps became exhausted here early by reason of their use by the 2500 soldiers stationed here so long. This was the only denomination they used. Mr. Out says the new consignment of twos is of natural proportions and will last a long time unless there is another big garrison established.

## Visiting Merchants.

Coffin Bros., two rich merchants from Washington State, have come to

Honolulu for a few weeks' visit during which time they will have an eye open for business opportunities. These men are well known in Washington. They have a large mercantile establishment in Seattle and branch stores in a number of the smaller towns of the state. They are well pleased with Honolulu.

## Mr. Irwin Buys More.

SAN FRANCISCO, Jan. 25.—A few days ago Banker William G. Irwin purchased from Irwin M. Scott for \$100,000 almost two full fifty-acre lots on the east side of Laguna, extending from Washington to Jackson streets. In this purchase there lacked a lot 32,612.75 of the two full fifty-acre lots. Yesterday Mr. Irwin purchased this lot from a Miss Spooner, to whom Irwin M. Scott sold it some years ago. The lot cost \$20,000, so that the site represents an outlay of \$120,000. It is Mr. Irwin's intention to build a fine residence on the site to cost between \$50,000 and \$100,000.

## SENATE IS TO DO

## Treaty Will be Ratified by House at Once.

May Be Rider Concerning Philippines—Money for Government Control Work—Mr. Davies

NEW YORK, Jan. 25.—The Herald's Washington correspondent sends the following: Ratification of the peace treaty on or before February 6. Probable adoption of a resolution declaring that the peace treaty does not bind the United States to permanent control of the Philippines. Appropriation of \$20,000,000 to carry out the provisions of the treaty. Passage of some compromise measure for providing enough men to garrison the colonies. No extra session of Congress.

This is now the outlook as the result of the action of the Senate today in agreeing to take a vote on the peace treaty and pending amendments at 3 o'clock in the afternoon on February 6, if not earlier. It was the most important action of the present session. Uncertainty and doubt have been dissipated, and the Senate can set about the transaction of business.

Leading Senators who have made a careful canvass of the situation have no doubt as to the ratification of the treaty. Senator Davis says he has not attempted to poll the Senate, but he has no doubt considerable more than sixty Senators will vote for the treaty when action is finally taken.

## HOW TO PREVENT PNEUMONIA.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing.) I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything." ## A SPIN TO DEATH

## Fatal Bicycle Sprint of a Transport Soldier.

## KILLED BY A COLLISION

Shaft of a Hack Influcted a Fatal Wound Investigation—Heart Failure of a Swimmer.

## ROAD FATALITY.

Private A. Herrington, of M Company, Twentieth United States Regulars, did not accompany his comrades on the Scandia to Manila yesterday afternoon to assist in preserving the Stars and Stripes in that far off land. Poor Herrington's life terminated in Honolulu in a sad and most unexpected manner.

Herrington had not asked for leave to go ashore on Friday, the first day of the Scandia's arrival in port, but secured permission from Lieut. Welsh of his company to remain ashore all day Saturday. Herrington rented a bicycle and spent the morning taking in the sights of the city. When noon-time came he started a final spin before going to his ship to secure lunch. When near the intersection of Smith and Punalu street, say witnesses, he collided with a hack driven by a native named Joe Kalana. The hack had just turned into Punalu street from Smith. The end of one of the shafts struck Herrington in the abdomen, causing a rupture. He was picked up and placed in a hack and taken aboard of the Scandia.

Dr. Van Tyle, surgeon of the Twentieth Infantry, took charge of the case, and did everything possible for the injured man. It was intended to move him to the Queen's hospital, but death came at 10 o'clock yesterday morning and ended Herrington's suffering.

The remains were carried ashore and taken to E. A. Williams' undertaking establishment. Interment will take place today.

A coroner's jury was empanelled about noon yesterday, consisting of H. M. Mist, Viggo Jacobson, Wm. Savidge, Marcus L. Hare, W. H. Smith and J. L. Nicholl. The testimony of a couple of soldiers aboard the Scandia, who witnessed the accident, was taken. The inquest will be concluded on Tuesday morning.

Herrington was a new recruit, having joined at Fort Leavenworth, Kas., but a few weeks ago. Nothing is known about his private affairs. His officers considered him a good man.

The evidence so far is that Herrington was on the mauka (right) side of Smith street, moving Eward and that the hack was on the same side, moving in the Waikiki direction. Kalana claims that he was driving carefully and was entitled to the right of way. Some of the soldiers claim Kalana tried to drive away without being identified.

## HEART FAILURE IN WATER.

Another death occurred in the Honolulu harbor yesterday. W. Hansen, a carpenter aboard the Star of Russia, died in the water at the foot of the ladder attached to his ship.

The Star of Russia is anchored well out in the harbor. Hansen and two of his shipmates went in bathing about 10 o'clock. They had been in the water some time, swimming, diving and turning somersaults. Suddenly it was discovered that Hansen was missing. A brief investigation and his body was found at the bottom of the ship's ladder.

Hansen's body was brought ashore and will be buried this morning. A coroner's inquest was held and a verdict returned that "Hansen came to his death in the harbor of Honolulu on February 5 from heart disease while in swimming and that death was accelerated by the shock caused by immersion in the waters."

The jury consisted of the same gentlemen empanelled in the Herrington panions was to the effect that he has always complained of heart troubles since they knew him. Hansen's fear was that his end would come quickly.

A third casualty in the harbor has narrowly averted on Saturday morning early. A fireman aboard the Scandia fell overboard and would certainly have drowned had not assistance arrived in time. One of the regulars saw the man fall overboard and threw out a life line.

## Crick's Race Horse.

(Malay Times.)

This morning there were two matches at the race course. Mr. Crick's Exile ran against Capt. Turner's Skipper for \$50 a side. Exile won by a neck. Ringwood ran against Communist and won in the most hollow fashion. Mr. Brooke rode Exile and Communist while Mr. Dixon was up on Skipper and Ringwood.

E. C. Crick, late of Honolulu, is now a magistrate in the Straits Settlements.

## A CAVE IS FOUND

Dr. Carmichael's Signal Success  
As an Explorer.

### ARE PICTURED ROCKS INSIDE

Prof. Alexander's Opinion—A Sacrifice Stone Near Waialua.  
Kalakaua's Notes.

Dr. Carmichael, the United States quarantine surgeon, who is stationed in Honolulu, called on Professor W. D. Alexander, at the Survey department yesterday, and made known the discovery of an ancient cave in the vicinity of Koko Head.

The newly discovered cave is in the Maunaloa district on this island, and is located near the coast and about half way between Koko Head and Makapuu point. "Pictured Rocks" were found inside the cave, and at Professor Alexander's suggestion, Dr. Carmichael and his party will make another visit to the cave to study the characters inscribed there for the purpose of ascertaining if they are similar to the pictured ledges of Kauai and elsewhere.

Dr. Carmichael has been scientifically inclined since his arrival in Honolulu and proposes to make the closest study of his discovery. Professor Alexander is positive that the existence of the cave in the Koko Head country has never been known to historians.

A short time ago a party consisting of B. F. Dillingham, Governor A. S. Cleghorn, Major Curtis P. Lauka, and Colonel Whyte of Seattle, were riding over the plains, back some five or six miles from Waialua, when they came to a natural bridge, crossing two ravines. On beyond, one or two hundred yards, was found a large stone, and near by three large holes. A little further on were the indelible marks of an ancient city.

This is known to have been the stamping ground of Kokoa, the Cannibal chief. He was widely known throughout Oahu as Kalo Alkanaka. The stone, where he executed his victims and the holes in the earth, were the ovens in which their bodies were cremated.

The late king Kalakaua in his "Legends and Myths of Hawaii," has this to say of the Cannibal chief and his settlement:

"It may be assumed that near the close of the seventeenth century, Kalo Alkanaka, the chief of the cannibals of Halemanu, and his people landed at Waialua, Oahu. They came from Kauai where they had been living for the previous ten years or so. They are said to have come to Kauai from one of the Southern Islands, which our tradition does not mention, in double canoes, and as they were in a starving condition, it was thought that they had been blown thither by adverse winds while journeying to some other Islands. They lived at first on land near the foot of the mountains back of Waimea, then in a secluded valley in the mountains of Haupu. Kalo Alkanaka was of chiefly proportions, and his muscular limbs were tattooed with rude representations of birds, sharks, and other fishes. His features were rather of the Papuan cast. His people were somewhat darker than the Kaulians; they were expert fishermen and swimmers."

The execution stone used by the Cannibal chief was exceedingly interesting to the members of Mr. Dillingham's party. The descriptions were very similar to that of Gilbert Farquhar Mathison, who made a visit to the stone in the year 1822, and has this to say about it: "I had expected to find a monument of great magnitude, instead of which I saw nothing but a flat stone, resembling an English tomb-stone, about five feet broad by six or seven feet in length. The surface was very smooth and upon it I discovered many rude representations of men and animals, similar to those which have from time to time been met with and described among the Indians of America. Many were defaced, and in others I could trace no resemblance to any known objects, either animate or inanimate; the stone itself was very imperfect, pieces of it having been broken off on different sides, which I learnt from the guide had been done by neighboring inhabitants, in order to convert the materials into knives, mirrors, pots, and other domestic utensils, which were always fabricated from stones in former times, previous to the introduction of iron by foreign traders."

The drawings at Honaunau, Kona, Hawaii, and at Keoniloo beach, Koloa, Kauai, have been written about considerably. They are perhaps the most famous in the group.

#### A Wedding.

A quiet and informal wedding took place on Thursday evening at the residence of H. M. Whitney, on King street in this city, when Mr. Allen M. Nowell and Miss Ruth Taplin were united in the bonds of matrimony.

Rev. W. M. Kincaid performing the ceremony. Mr. Nowell is bookkeeper of the Hawaiian Agricultural Company at Pahala, Kau, Hawaii, filling the position formerly held by the late Mr. Zeigler. Miss Taplin is the daughter of Mr. M. Taplin of Boston, and arrived here on Wednesday in the Mariposa. The ceremony was witnessed by the relatives and friends of the young couple. Mr. and Mrs. Nowell left yesterday in the steamer Mauna Loa, and will make their home in Pahala.

## WITH THE 20TH

Transport Scandia has  
Regiment of Regulars.

Made a Good Run—Is to Await the  
Morgan City—A Fighting Command.

(From Saturday's Daily.)

The Twentieth United States Infantry regulars are city visitors. They came on the U. S. army transport Scandia early yesterday morning, arriving two days earlier than expected. The Scandia received orders in San Francisco to sail for Honolulu and await the Morgan City, which would carry later orders. This cutter transport was scheduled to sail out of the Golden Gate a few hours after the Scandia left. If she has not been detained, the Morgan City may be expected to arrive in port today.

If the Scandia is accompanied by the Morgan City, that vessel will steam ahead and arrive in Manila several days before the Morgan City.

A total of 1211 passengers are on the Scandia, all belonging to the Twentieth Infantry, save four recruits for the Iowa regiment. The Regimental band is aboard. The regiment is in charge of Brigadier General Wheaton.

Shortly after arrival in port, the Regulars came ashore and were marched up Nuuanu Valley for exercise. They were headed by the regimental band.

The Twentieth regulars have been stationed at Fort Leavenworth, Kansas. They saw active service in Cuba and were highly commended.

Captain A. S. Brooks, U. S. A., is the quartermaster in charge. F. W. Hart is master, having succeeded Captain Messer. The personnel of the other officers includes: F. E. Maguire, Chief officer; F. A. Gardner, second officer; F. M. Bucklin, purser; L. I. Corbin, freight clerk and E. J. French, chief engineer.

#### Coffins on the Ohio.

(Examiner 25th.)

The transport steamer Ohio will have in her hold when she sails for Manila 500 coffins. Several drays were engaged to-day in hauling the coffins to the steamer and by night there was a great pile of them on Folsom-street wharf waiting to be stowed aboard the transport. Six experienced undertakers will go on the transport to superintend the shipment of remains of soldiers. On arrival at this port the bodies will be either sent to relatives or buried in the national cemetery at the Presidio.

## SAY "OR DEATH"

Alternative of Filippino Seeking  
Independence.

### TWO AGUINALDO MEN HERE

One Talks Freely—Rebel Chief  
Stands Out Against Annexation—Ready For a Fight.

The America Maru has on board as through passengers, two members of Aguinaldo's special commission to Washington. The other three members of the commission passed through on the Nippon Maru last month.

General E. Riego de Dios and Senor M. Rivera are the commissioners now in the city. They started from Manila with the other members, but were detained in Yokohama on account of the sickness of the General. General Dios is an old soldier and has been Aguinaldo's companion throughout several revolutions. He is a thorough Filipino, has never been outside of his native country and speaks his native tongue only. Mr. Rivera is the secretary of the commission. He is 26 years of age and is an interesting conversationalist. He was educated in the English schools of Hongkong and has been interested in Aguinaldo's secrets and intrigues from his boyhood days.

Mr. Rivera talked quite freely to the Advertiser last evening.

"Aguinaldo's second proclamation," said he, "which he issued to his people shortly after the departure of our commission from Manila, called for either death or independence. Our Congress, which is in session at Malolos, has passed a vote of confidence in Aguinaldo and authorized him to make war on the Americans whenever he may deem it advisable."

"General Otis gave out a proclamation to the people of the Philippine Islands early in January, and titled himself as Military Governor. He also gave out impression that it was the intention of the United States to annex the Philippines. In responding to this proclamation, Aguinaldo protested to General Otis calling himself Military Governor of the Philippines. Our President solemnly proclaimed that he did not place himself under any obligation to acknowledge the sovereignty of America in our beloved soil, either in Singapore, Hongkong or the Philippines. On the contrary Aguinaldo insists that he was given to understand by Admiral Dewey and General Merritt that the purpose of the United States in waging war against the Spaniards was to give the Filipinos their freedom and independence."

"Aguinaldo in his second proclamation, in which he declares firmly for absolute independence or death, gives in detail his side of the present controversy. The proclamation was addressed to all foreign nations and stated in positive terms that if hostilities began, the United States alone was to blame. This document created much excitement throughout Manila and all the provinces."

"Do you think that Aguinaldo appreciated the military resources of the United States?"

"Yes, fully," quickly responded Mr. Rivera. "Aguinaldo knows that we are weak, but that is not the issue. He is seeking the freedom and independence of his people. It is that and nothing else. Aguinaldo and all his followers will give up their lives before submitting to American rule. It is Independence or Death."

Mr. Rivera stated that Aguinaldo has never been outside of the Philippines except recently when he visited Hongkong and Shanghai.

The second and very sensational proclamation issued by General Aguinaldo, was posted throughout Manila on January 8. Excitement soon rose to fever heat. The Spaniards packed their household goods and fled to the walled city, while the insurgents went immediately to the insurgent lines.

When the news reached the American headquarters and the purport of the manifesto was learned, orders were sent to the headquarters of every regiment on the island to keep the men within quarters under arms, ready to respond at a moment's notice to any emergency call. Guards all over the city were strengthened and every possible precaution was taken against an outbreak or disturbance.

Many insurgents who have been working in the city left their positions and went flocking to the lines outside of the city. As a result many business houses are short of help, and some have even closed their places temporarily.

The American, published in Manila, in speaking of the situation says:

"While all indications at present point to a very strained condition of affairs existing between the Americans and the insurgents, it is hoped that cool, calm judgment will avoid an open

rupture, which the slightest overt act might cause.

Here is the first proclamation of Aguinaldo:

The proclamation issued by Maj. Gen. Otis of the U. S. Volunteers, which was published yesterday in the Manila newspapers, compels me to circulate the present in order to make known to all people able to read and understand the present document, my most solemn protest against the whole of the contents of the aforesaid proclamation fulfilling thus with my duty and conscience before God, my political promises with my beloved people, and my private and official relations with the North American Nation.

Gen. Otis calls himself in the proclamation, Military Governor of the Philippines, and I protest one and one thousand times with all the energies of my soul, against such authority.

I most solemnly proclaim, that I have not had either in Singapore, Hongkong, and Philippines any obligation either verbal or in writing, to acknowledge the sovereignty of America in this beloved soil.

On the contrary I say that I have returned to these islands conveyed in an American war vessel on the 19th of May of last year, with the decided and manifest purpose of waging war against the Spaniards, in order to reconquer our freedom and independence; and so did I set it forth in my official proclamation of the 24th of May, and in my proclamation to the Filipino people on the 12th of June, when in my birthplace of Cavite I unfurled for the first time, our sacred national flag, as a sacred emblem of our sacred aspiration, and lastly so did the American General, Gen. Merritt, predecessor of Gen. Otis, confirm it in his proclamation to the Filipino people a few days before requesting the surrender of the City of Manila from the Spanish General, Senor Jandenes, in which proclamation it was clearly stated that the land and naval forces of the United States came here to give us our freedom, demolishing Spanish misrule.

And furthermore naturales and foreigners have been witnesses that the land and naval forces of the United States here extant have acknowledged the belligerency of the Philippines, not only respecting but rendering due honors publicly to the Philippine banner, which was triumphantly sailed

over the seas in the presence of all the foreign nations here represented by their respective consuls. As in the proclamation of Gen. Otis something is said about certain instructions of H. E. the President of the U. S., relating to the administration of the affairs of the Philippines. I protest solemnly in the name of God, root and fountain of all justice and right, and Who has visibly granted me the full power to direct my beloved brethren in the difficult task of our regeneration, against this intrusion of the U. S. in the suzerainty of these islands.

I equally protest in the name of all the Philippine people against said intrusion, because on granting me its vote of confidence, electing me, although unworthy that I be, to the post of President of the Nation, it has imposed upon me the duty of supporting till death its freedom and independence.

And lastly, I protest against this action so unexpected of the suzerainty of America in these islands, in the face of all the antecedents that I have in my possession relating to my relations with the American authorities, which prove in an unmistakable manner that the U. S. did not take me from Hongkong in order to wage war against the Spaniards for their benefit, but for the benefit of our freedom and independence, to attain which, said authorities made me the verbal promise of their decided support and valuable co-operation.

And in that way do I want you all to understand it, my beloved brethren, in order that united all by the bonds which cannot be severed, such as the idea of freedom and our absolute independence which have constituted our noble aspirations, you may all co-operate to the attainment of the desired end, with the strength given by the already very firmly rooted conviction of not turning back from the path of glory which we have traversed.

Malolos, 5th of January, 1899.  
EMILIO AGUINALDO.

## BERESFORD.

Honolulu welcomed Friday a noted Englishman. It is nearly forty years since Lord Beresford manifested his exuberant spirits in these islands. He again comes to us laden with much honor, a daring fighter on land and sea, a man of experience, a statesman, a leader in the higher social life of England. To his sense and judgment the British resort in determining their relations with the Oriental nations.

## EXPANSION AND POLYGAMY.

Among the questions presented by the Expansionists to the American people is the painful one of the disposition of polygamy in the conquered territory of the Philippines. The prevailing opinion among the statesmen is, that the Constitution covers all territory belonging to the United States, and the inhabitants of such territories become American citizens, with the right to move about, or reside in any part of the national domain.

Upon the ratification of the treaty of Paris, the Philippines will become American territory, and the inhabitants citizens of the United States. At once, there will be added to our population several millions of Mohammedan polygamists, who will flaunt in the face of Uncle Sam, the words of the great Prophet commanding plural marriages. Moreover, they will politely but firmly inform Uncle Sam, in his character as Missionary of good government, that they do not propose to have their sacred institution impaired by any new fangled experiments; that if the Occidental choose to admit that in their boasted development one man can only manage one woman, it remains for the Orientals to show a much higher capacity for social organization, by the management of many women by one man.

What shall be the attitude of our Expansionists? Will they have the courage of their convictions and cause notices to be posted upon the gate posts and fences throughout the Philippines in all dialects; "polygamy strictly forbidden on these premises," "on and after date licenses to marry only one woman issued," "no good government and polygamy can exist together?"

Will the Expansionists turn loose upon the cold Asiatic world some hundreds of thousands of helpless superfluous wives, as the superfluous wives of the Mormons were once driven to the wall?

The British follow the simple and worldly practice of permitting the misguided inhabitants of their colonies and dependencies to preserve and perpetuate their own "heathen" institutions. Idolatry is protected by British bayonets. The great monkey temple at Benares is protected by the British armies. Polygamists hold high office under the British Queen. Even in Hong-Kong, entirely a British possession, the Chinese are under no restrictions regarding marriage.

Although the British policy in this respect works admirably so far as trade and law and order are concerned, will the great American churches, unfamiliar with British worldly wisdom, consent to any virtual endorsement of polygamy, and serve initiation of the British? Will not a bitter crusade be made against the children of the Prophet, on the ground that they will never be fit to rule themselves while they permit "too much marriage," as Artemus Ward observed?

Again, if those Mohammedans become American citizens, they will be entitled to protection if they immigrate with their wives to these islands. A British Mohammedan may temporarily take his wives to London, and his right to his wives will be protected by law, but will it be permitted that a Mohammedan laborer or merchant may emigrate to Hawaii and live there with his plural family?

Should the Philippines become a part of our national territory, Congress may have to wink at Asiatic polygamy, as one of those unfortunate incidents that attend every great philanthropic movement for the benefit of mankind. In the records of the Old Testament for instance are recorded very many "winkings" at the polygamous failings of the Patriarchs.

The great Denominations are disposed to sympathize with the Expansion movement, because it tends to secure for themselves a better footing in the conquered lands. Have they considered the polygamous aspects of the case?

## OCEAN POETRY.

Mr. J. Hooker Hammersley, a relative of the former Duchess of Marlborough, has recently published a book of poems titled, "The Seven Voices." One of the poems is the "Sea Surf

"Song." In describing his subject in composing this poem, he says:

"The first three lines of such verse represent the sound of three large waves rolling in and breaking; the fourth line represents the waves receding over the pebbly beach."

We, at least, our young people, should be experts in criticizing the music of the "sea waves," and the "hoarse music" when the waves lose their tempers, and would the land. The following are two of the verses, which are respectfully submitted to the students of Oahu College and the High School, and all other schools in which poetry is discussed:

Shine! as sculptured slab, the surging surf shows shrouded grave.  
Sing the ceaseless, cheerless chanting, as for souls to save:  
Sage schismatic, saint scholastic, sovereign, shah and slave,  
Sleeping 'neath the sad, sad sea.

Surf, as sinuous serpents shining, while the seagulls soar,  
Shriek! as shameless shades of sheet, shackled souls forlore,  
Shake! as steers their shoulders shaggy on the shelving shore,  
Shuddering by the sad, sad sea.

It is quite probable that the author has never seen the ocean, and has mistaken the roar of the angry billows of a canal, or the "cheerless chanting" of the ripples in some horse pond, for the many voiced sea.

As these islands are unusually rich in ocean fronts, and the varied character of our shores permits a great variety of marine music, our own poets and critics should establish the best standards of excellence. Let them determine whether or not Mr. Hammersley has caught the expression of the ocean.

## A WONDERFUL ESCAPE.

One of the most romantic incidents of the Civil War was the capture and escape of Gen. Juan T. Morgan and General Basil W. Duke and four others, who with a considerable force of Confederates raided the State of Ohio in 1863. They were captured, and these officers, with 168 other Confederates were placed in the Ohio State Penitentiary at Columbus. Shortly after that imprisonment, several of them contrived a plan of escape, which was successfully executed. The plan was carefully made, and in its details showed the extraordinary resources of men who were intelligent and had one object in view. The story of it was graphically told in the Century several years ago. The scheme would permit of the escape of only six persons. The only tools that were used were two knives from the Penitentiary kitchen, formed out of two flat files. With these the prisoners cut through six inches of solid cement, took out six layers of brick carefully cemented, cut through a foundation wall five feet thick, then through five feet of grouting to an outer wall, through six feet of outer wall, and then upwards, three feet to the surface beyond the prison wall. The tunnel was made large enough to permit the passage of a man's body. Among the six who escaped was Thomas W. Ballett. At the time of the escape it was believed by the Federal authorities that it could not be made without treachery on the part of the prison officials. Nor was it believed that the difficult work of digging through cement and brick could be accomplished with the use of two knives only.

Recently Mr. Ballett stated that he had thrown one of the knives in an air shaft at the time of the escape. Search was made, and the knife was found in the bottom of the shaft, thirty-five years after it was placed there. The other knife was also found in the tunnel.

Neither Poe nor Dumas have, with their unfettered imaginations, ever worked out a plot exhibiting the force of human ingenuity, the study of detail, the anticipation of events, the precautions taken to avoid discovery more carefully than these men worked out and executed their plan of escape. The late Major Elder of the U. S. Artillery, who made his escape from Andersonville prison across the "dead line," and Capt. Randolph, now Gen. Randolph, commanding artillery in the Spanish war, who escaped through a tunnel dug under the Libby prison, said that the obstacles they met with in effecting their escape were trivial when compared with the difficult obstacles overcome by these Confederates. As an object lesson to children in the value of perfecting details, this story might well be placed in the school books.

## WELCOME TO HAWAII.

Hawaii welcomes Capt. Barker of the Oregon. The freedom of the place is extended to him. We know his excellent record. He is almost a Hawaiian—one of us—for he did here one of the gallant acts of his life, and we shall expect that when he rounds up his last post, he will take his bearings for this place, and make his final anchorage here.

Lord Charles, the apostle of the Open Door, seemed to be the sort of a man who would keep open house himself.

## DR. BISHOP AND THE THEATRE.

The Rev. Dr. Bishop has again been presented with a horrid vision of the depravity of attending the theatre. With the fervor of the prophet Jeremiah he indulges in some scathing lamentations over the rotten souls of those who love the drama. "The majority of the theatre goers are," he says, "persons of debased life and thought."

When President Lincoln was assassinated while attending the theatre, it is well known that many persons with the spiritual and mental vision exhibited by Dr. Bishop, believed and now believe that the assassination was a direct punishment of Mr. Lincoln for attending the theatre. Several of the inferior religious publications timidly advanced this opinion. "Respectable Christians" whispered it, but hardly dared to say so aloud, because the great Christian nation would have broken beyond bonds, and advocated the use of tar and feathers upon those who would, by such suggestion and formidable bigotry, insult the sorrow of the people.

Mr. Leicester Ford has recently published an article, giving at length the persistent love of the drama shown by General Washington throughout his life. He attended the theatre whenever he had the opportunity to do so. Even, after the Continental Congress had forbidden amusements during the Revolutionary war, General Washington violated the law, at Valley Forge, and attended a theatre in which some of his own men presented plays.

With such illustrious examples of theatre going before them; with the growing attendance at the play of the refined, the influential, and the professedly Christian people, Dr. Bishop and the class he represents, will simply find it impossible to make headway against this "evil" as they call it.

Many who have the presumption to elect themselves to the serious and high calling of instructors, take their knowledge of life through surface absorption. They see the world only through loop-holes, and base their instructions on the poorest of all knowledge, that of belief and not of fact. They travel through life along the floors of the deepest canyons of inherited theories and ancient beliefs, and seem never to rise to the plains that are flooded with the sweetness and light "that is slowly wrapping the world with wiser thoughts and practices."

Dr. Bishop's horror of the theatre, because it "saturates the mind with vile and salacious images," as he declares, is fully shared by millions of Mohammedans who forbid their women to appear in public, for the very same reason that Dr. Bishop warns men to keep away from the theatre. This deep tincture of Mohammedan ethics in Dr. Bishop's Puritan mind, indicates a singular coincidence of belief. Is Dr. Bishop, after all, a Mohammedan in disguise, and if he had the opportunity, would he secrete all women, in order to save the souls of a few weak brethren?

Dr. Bishop's way of looking at life, and especially the theatre, in which he sees mainly the "vile images," recalls the transaction of another aggravating moralist, who, some twenty years ago, collected and published in book form the "objectionable" and "impure images" contained in the Old Testament, and urged that no respectable person should read that portion of Holy writ. Even the booksellers would not keep this compilation on their tables.

If Dr. Bishop would become, for a year, the manager of a company of "barn stormers," and at the end of the season, would report for the benefit of mankind, the moral effect of the drama upon his audience, he would at least substitute some facts for mere conjecture, unless his own mind became unfortunately "saturated" with the impure images of his own dramatic experience.

## UNEVEN TAXATION.

One of the singular economic enormities of the times, is the unequal taxation of property. The unequal and unjust system of taxation prevailing here, although well known, excites no deep public interest, because such taxation usually fixes itself upon those who are not able to resent the imposition. On the whole, however, property owners are conscious that few persons really pay the amount of tax which an equal distribution of the burden requires, and therefore prefer to let the matter alone.

The Comptroller of the State of New York says, in his annual report that only 3 per cent. of the personal property domiciled in the State is now subject to tax. Why there should be such an unjust, absurd, and illegal system of taxation in a democracy, or "government of the people by the people," is one of the strange incongruities of democratic rule. After all the shoutings for freedom and liberty, and the rights of man, the people of the great State of New York, and Massachusetts as well, throw a great part of the burdens of supporting the government upon the owners of land. The governor of Massachusetts thinks that reformation of the system is at present hopeless. It was believed at one time that the tax on legacies and in-

heritance would reach personal property. It does to some extent, but the good citizens instead of leaving their estates to be divided after death, are "beating" the death by distributing them before death.

There is no moral sentiment in the American communities in favor of paying taxes. Taxation with representation is a doctrine admitted by every one. But the waste of public money by the Legislature, and the practical rule of the Bureau gives every person who wishes to do so, abundant reasons for beating the State out of its dues. Moreover, the condition is such that confiscation of income would follow, if the law was partially enforced. In the Union Trust Company of the city of New York, lies the sum of \$1,000,000 belonging to an estate which is involved in litigation. For ten years the annual interest allowed on that sum by the Trust Company has been 2 1/2 per cent., while the taxes upon it have been 2 per cent., and in certain years more than that rate. As the safest rate of interest is four per cent., it is clear enough that the owner of a million of dollars in safe securities will only receive \$20,000 annually from it. If he makes an honest return to the State of this property.

The inequalities and burdens of taxation, in the most despotic States are not more grievous than they are in some democratic states.

## A TROPICAL RATION.

Major Surgeon Louis L. Seaman of the 1st Reg. U. S. V. Eng. makes some valuable commentaries in the Century on the army food ration in the tropics. While he confines himself to the army ration, what he says has great value in estimating the food ration of the white men who live in the tropics. The wide spread, if not alarming increase of the "nervous" brigade in these islands ought to compel a thorough investigation of the proper hygienic conditions for our daily life. The doctors could tell us what to do, if they choose to, but they, like the lawyers, and the merchants, and the druggists cannot afford "to give away their business." So the laymen must work out their own salvation.

Dr. Seaman says the regiment on arriving at Porto Rico August 16th numbered 1144, and were in remarkably fine physical condition. Every effort was made to keep the men in the best condition. No criticism, after the regiment returned, could be made on any of the sanitary arrangements, because every good and practicable suggestion had been followed. Medical supplies were in abundance. "Yet," says Dr. Seaman, "hundreds of cases of serious forms of gastro-intestinal catarrh and fevers rapidly developed. With few exceptions the entire force suffered from some form of intestinal catarrh within a week after arrival, due either to change of water or slight colds resulting from sleeping on the wet ground, or eating fruit."

The army ration was mainly fatty bacon, salt beef, canned tomatoes. The men grew weak under this ration, and lost the power of fighting disease.

Whenever, however, the men were placed upon a rice and milk diet, they began to improve. The records of the hospitals show conclusively the value of the milk ration. If the troops had been fed upon this simple ration, largely made up of carbohydrates, as soon as they entered the tropics, there would have been, in Dr. Seaman's opinion, no decrease in their physical condition.

Dr. Seaman makes no discussion of the proper ration for the tropics.

Perhaps he does not feel at present competent to state what it should be. A cynical review of his opinion would suggest that an American army in the tropics should be attended by innumerable flocks of goats, which would furnish the ideal ration. An army of 50,000 men would require at least 100,000 she goats as a basis of supplies.

There are excellent reasons for suggesting the organization of a society for "The Preservation of the Physical Condition of the White Man" in these islands. In making this suggestion we know that some of our excellent doctors will in the night time, draw the skull and bones across the door of the Advertiser, because our suggestion tends to destroy a "valuable industry." But, in the long run, the doctors will be the strongest advocates for using a "rational ration," in our tropics. No more valuable or interesting subject could be discussed by them than this question of diet. For here, the Anglo-Saxon has come to stay, if the climate and the Asiatics permit, and the Anglo-Saxon finds here, as the enlisted men found, that the tropics are a Paradise outwardly, but that the immutable hygienic laws of the Paradise must be known and followed, in order to prevent the dwindling of the white man who ventures to live within it.

## Impure Blood

Rheumatism, Kidney Troubles and Sick Headache the Results—Becomed for Years Without Relief.

"My blood was out of order, and I began taking Hood's Sarsaparilla. It has purified my blood and relieved me of rheumatism, kidney trouble and sick headaches. I have been afflicted with these difficulties for years. I am now able to do a good day's work. Rheumatism has troubled me since I was a child, but I am now entirely well." Miss FARRON BARTLEY, Box 445, Pasadena, California.

"I have suffered from the effects of impure blood, boils, pimples, etc., for five years. I have tried various remedies without relief and finally purchased six bottles of Hood's Sarsaparilla. The boils and pimples have all disappeared since I began taking this medicine. I am now entirely cured." LOUIS THOMAS, 1412 11th Street, Oakland, California.

To the battleship Oregon and to the people of Honolulu it is due that some demonstration in honor of the "bull dog of the American Navy" be made while the famous ship is at this port. It would be well, perhaps, for the Chamber of Commerce to take the lead in the matter.

Johnson is the Republican who had applause from the same side when he made a speech in the House against the Hawaiian resolution.

The Hilo people have their new wharf exactly where they voted that it should be built and are so deeply disappointed with the location that a complaining newspaper heads a wall "Must Grin and Bear It." When these people lead the swarms of glory in the sweet hereafter they will stop the procession to lodge the protest that their halos don't fit.

The public mind seems to be pretty well centered on the thought that honor should be done the battleship Oregon. Amongst the suggestions made is that of a reception for the officers. It is urged as well that the men should not be forgotten. Shall the Chamber of Commerce, the Big 100, the Ladies, or an entirely new popular organization have the distinction of leading in this affair?

The Senate at Washington will be finished next week with the treaty. Legislation for Hawaii will then have a clear road. It is the fervent wish of all concerned that laws for the islands be made without delay. It is believed that in Washington there is influence operating that will facilitate matters in the interest of the islands. For one great big thing John T. Morgan, now called the strongest individual power in the body, is in favor of acting for Hawaii.

## TRUST A LOSER

Decision in a Case Arising Under '94 Law.

Time of the Market Value of Sugar: Cargo From Brazil—A Test Suit of Interest.

NEW HAVEN, Jan. 26.—According to a decision recorded in the United States Court to-day by Judge William K. Townsend the American Sugar Refining Company has lost its two cases against the Appraisers of the port of New York. The question at issue involved the point whether the valuation of imported sugar should be on the basis of its market value at the port of shipment or the port of entry. While the act of 1894 was in force the American Sugar Refining Company made several large shipments of moist and green sugar from Brazil. The market value of this sugar when it left Brazil was 68 3/4 per hundredweight, but its market value when it arrived at New York had advanced to 78 3/4 per hundredweight. The Appraisers assessed it at 40 per cent. ad valorem according to its valuation in the New York market, and the American Sugar Refining Company appealed from the decision. The suit was a test case, and its decision by Judge Townsend against the American Sugar Refining Company disposes of a point that has been in dispute at American Custom Houses for many years.

In his decision Judge Townsend says: "Owing to drainage, there are less pounds of sugar on arrival here than when the ship left Brazil, but the cargo is actually worth as much as when it started. It appears, therefore, that if the sugar has been kept for the same length of time in Brazil the same loss in weight by drainage and increase in value per pound would have taken place there and the value of the cargo as a whole would not have been affected thereby. If this be so, I do not think the importer should gain by the decrease in weight coupled with an increase in value per pound. Unless, therefore, the Appraisers have acted in bad faith or have clearly committed a substantial error by their mode of ascertaining the market value in Brazil of the sugar on its arrival here, their decision should be affirmed. I am unable to find any such mistake or error."

## PROPERTY QUALIFICATION.

Some Argument Included in Report Made to House.

"The question of a property qualification of any kind for a voter or member of the Senate is an important one," say the majority report on the Hawaiian bill, "and calculated to excite antagonism to the United States, but such a qualification has long prevailed in Hawaii, and, as far as can be ascertained, meets the approval of the people. The requirement has gradually grown less prohibitive, and that now proposed is the most liberal, and the commissioners, in their report, look for its final extinction, but the present time is not favorable to the experiment. It insures, as far as possible, a conservative body in the legislative body of Hawaii at an important period of its history. It permits a large number of native Hawaiians to vote for members of the upper house, and the objections to this provision are largely met by the removal of all property qualifications for membership of the lower house or for electors of members of that body. Thus a popular house is created, all classes are represented, and each house will be a check upon the other."

The report also speaks of the favorable features of abolishing race distinction in juries and the extension of the English language in Hawaii.

As to the extension of the custom and revenue laws of the United States to Hawaii, the report says that a special bill, now pending, covers the case, and if this is not passed, then the general bill will be amended to cover the case.

## A Reward of \$500.

Marshal Brown signed an order last evening offering a reward of \$500 for the arrest and conviction of a Japanese named Saito. The Japanese made an assault on a Japanese woman living in the district of Ewa a little less than a fortnight ago, which resulted in her death. Saito made good his escape and the closest police vigilance has failed to reveal his whereabouts.

Japanese Interpreter Doyle states that the Japanese are banded together to protect each other against law and order. He believes that the reward will cause those who are shielding Saito to give him up to the authorities.

## AT A CALENDAR

Opening of Circuit Court February Term.

## SEVERAL CASES PUT ASIDE

The Sentence Pronounced—Wife Beating—First Trial by Jury.

Next One.

The February term of the Circuit Court convened yesterday morning, the Hon. W. L. Stanley, Judge, presiding. There was a large attendance of lawyers and interested spectators. The term promises to be a busy one.

The case of Alapaki, practicing medicine without a license, sentence to be pronounced, by the request of Deputy Attorney General Dole was continued until the May term.

Annie Kino, charged with forgery, plead guilty. Her sentence was suspended for six months.

The case of Jim Shearn, charged with assault with a deadly weapon, sentence to be pronounced, sentence was suspended till August term of this year.

Noile prosequi was entered in the case of Steven Kana, assault and battery on Tom Cavanaugh.

Joe Fraga, assault with a deadly weapon, sentence suspended until the 9th of this month.

Soy, charged with larceny in the 2nd degree, was dismissed.

The plea was reserved in the forgery case of Ed Aldrich.

Pledor Weizbiski entered a plea of not guilty to the charge of larceny in the 1st degree.

The ejectment suit of Mary E. Foster vs. John McGuire was dismissed. J. D. Holt vs. Kauhi, ejectment, was continued.

The trespass case of Kalua vs. Ewa plantation was continued.

Judge Perry will hear the cases of Waikulani vs. Trustees of Bishop estate, and L. Ahinu vs. Annie Walter, et al.

The assumpsit matter of C. H. Laage vs. Hawaiian Carriage Manufacturing Co. has been settled out of Court.

These civil suits were discontinued: Hyman Bros. vs. Len Pau et al., assumpsit; J. Hopp & Co. vs. R. H. Reid, assumpsit; L. Ahlo vs. Apa, ejectment.

The equity case of Melekina et al. vs. Kuoha, on appeal from Judge Perry, was stricken from the calendar.

Ben Kaluna, a muscular, low-browed Hawaiian was brought before Judge Stanley on a charge of wife beating. Mr. Dole asked that this man be given a severe sentence claiming that no light punishment was sufficient for a man who would strike a woman.

Judge Stanley with strong emphasis endorsed that statement. The man begged for a light sentence. The Judge said that money did not pay for such an offense. The man was sentenced to three months imprisonment at hard labor.

The first jury trial of the term then began with the following jurors sitting: Jno. Kealohakui, J. Nalua, M. Keliaa, D. Kama, G. R. Keomaka, Peter Souza, Wm. M. Kekipi, W. H. Kahumoku, Dan Kamaka, J. Mana, G. H. Karratt, George Hookano.

The trial was that of the Republic of Hawaii vs. John Kalauka, larceny in the second degree. The case was on appeal from the District Court of Koolau-poko. Attorney De Bolt for defendant.

The defendant and Enoke Kaniapio were arrested and brought before the District Magistrate charged with stealing pigs from Ah Nung, a Chinaman. Kaniapio plead guilty and was fined \$2 and costs. Kalauka stood trial and was fined \$10, being found guilty. An appeal was made. The prosecuting attorney, Mr. Dole, and the counsel for defendant, Mr. De Bolt, found ample opportunity for bright flashes of humor when speaking of the pig catching episode. This trial occupied the entire afternoon. The jury retired about 4:30 and soon brought in a verdict of not guilty. The defendant was discharged. The Government has lost the first case.

There is only one case remaining for the Hawaiian jury, that of the Republic of Hawaii vs. Dan Houghtailing, liquor selling without a license, which will be heard this morning. De Bolt for defendant.

An order was signed by the Court yesterday authorizing payment of fund realized on the sale of the schooner Labrador, \$935.75 were used for repairing the ship; \$24 were retained for costs of court.

In the suit of J. W. Paris vs. A. Fernandez, the defendant has appealed to the Supreme Court from the order and decree of Judge Perry overruling the defendant's demurrer to the plaintiff's bill of complaint.

L. D. Spencer has noted an appeal to the Supreme Court from Judge Perry's decision in re ship "Euterpe." The at-

torney for the respondent has agreed to an interlocutory appeal.

It has been stipulated that the registry case of the ship Star of Russia remain in statu quo until a decision is rendered by the Supreme Court on the appeal concerning the bark Euterpe.

In re Falls of Clyde a motion to quash amended answer was overruled by Judge Perry.

## HAWAII POLICE

(Hilo Herald.)

Several changes were made in the police department yesterday owing to the resignation of two of the officers.

Ben Brown returns to his old post as captain of the force vice E. N. Hitchcock, resigned, and Floyd Eaton is appointed third lieutenant to succeed R. M. Duchalsky, who goes into the livery business.

C. Manaole has been given the position of night clerk at the station house and Charles Kealohe goes to Papaikou as policeman.

## OLAA DOES WELL

Will Have Greatly Increased Coffee Output.

The Puna Error—Banner Hamakua—Case Enterprise in Coffee District.

R. H. Rycroft, a Puna coffee grower and real estate man of Hilo, is in the city attending to some business matters. He will return to the big island on the Kinaiu this afternoon.

Mr. Rycroft is sure that the present year's crop in Olau will prove beyond any doubt that coffee is not an experiment in that district. "The output will more than treble that of last year," said Mr. Rycroft. "This is accounted for by a good many of the plantations attaining their maturity. The purchase of the Zimmerman property for \$25,000 by some Chicago parties, has given an impetus to the industry. Some other Easterners are contemplating going into the district.

"Puna district is doing fairly well. There are no new estates, though, and we who are in, are resting on our oars. A general mistake has been made throughout Puna, and that is in cutting down our shade. Hamakua is the banner district on Hawaii for coffee cultivation. The great difficulty there is the lack of available land."

"Is it true that sugar is taking the place of coffee in Olau and Puna?"

"Not at all. Some growers in Olau are going to plant cane seed in spots where coffee trees have been poorly set out. F. M. Wakefield has secured possession of the land of Keau, adjoining Olau, and will soon convert it into a sugar estate. Yellow Caledonia is growing to an excellent advantage at the elevation of 23 miles on the Volcano road."

## NEW PLANTATION.

Scheme for a Cane Estate in Puna, Hawaii, (Hilo Herald.)

It is probable that a large sugar plantation will be established in Puna on the lands of R. A. Lyman and others adjoining within the year. The project has been in the hands of promoters in Honolulu for several months and they have strong hopes of being able to float the scheme.

The Lyman lands are capably situated and the soil is adapted to cane growing. There are two lakes with an inexhaustible supply of water, besides numerous cracks in the lava beds from which water may be pumped. The area of available land is about 3,000 acres and it is situated convenient to the road and wharf. The product of the mill could be shipped direct from the landing to the coast. The roads into Puna are among the best in the island, and it is safe to say that if the country about there is settled it will be tapped by the Desky electric railway.

## FROM SPAIN.

Madrid Advice on Conditions in Old Colonies.

MADRID, Jan. 25.—Unofficial dispatches from the Sulu Islands, of the Philippine group, declare that all is well there and that the Spanish occupation continues.

Dispatches received by newspapers here assert that the insurrection of the Filipinos is spreading considerably. A native regiment which was disbanded by the Spanish, it is alleged, enlisted as a body in the service of Aguinaldo.

## IS NOT IN FIELD

Consul General Has No gubernatorial Lightning Rod.

## A STATE DEPARTMENT MAN

Aspirations Run in Another Channel—His Comment—Handling of Coal for the War.

There has been considerable discussion lately in political circles concerning the reported candidacy of William Haywood, the American Consul General, for the office of Governor of Hawaii. It was quite positively stated that Mr. Haywood's recent visit to Washington was in the interests of his reported boom.

Mr. Haywood was interviewed at his home last evening.

"It is stated to the Advertiser, Mr. Haywood," said the reporter, "that you are an aspirant for the governorship and that this was the object of your recent unexpected trip to Washington."

"The statement is absurd," Mr. Haywood instantly replied. "I cannot understand how such a rumor could get about when there is absolutely no foundation for it. Holding the position of Consul General here, makes it impossible for me to be in any way mixed up in the local politics of the Government to which the President has accredited me."

"Ever since I left college, I have been connected in one way or another with the department of State and it is hardly likely that I should commit such a serious breach of regulations. The action of a President of the United States not many years ago in sending passports to an ambassador of a powerful and friendly nation because it was thought that he had interested himself too much in the Presidential election in the United States, is still fresh in my mind."

"You can say that I have never made an application for the office of Governor or for any other Federal position here and I am sure that none of my friends at home have ever asked that I be appointed to any position in Hawaii under the new form of government. They all know that my desires run in other directions."

"When do you expect that you will be relieved of your duties here?"

"I have no way of knowing other than what I see in the papers regarding Congressional Legislation. I fancy that as soon as Congress extends the customs and navigation laws to the islands my duties will cease and my recall will be received in due course of business. I look for this to be done during this session of Congress, though it is impossible to say positively. There will be no necessity of a consular office after the laws are passed."

"Who will take charge of the American coal now in your possession?"

"Some time ago I was relieved of the army coal, turning it over to Col. Rublen, and it would not surprise me if the next steamer from the coast would bring me orders to hand over the navy coal to someone designated therein. I have received no orders, as yet, to do so."

It is estimated that Consul Haywood handled over 60,000 tons of coal for the United States since the time that war was declared against Spain.

On one occasion the Government had little or no coal. Several shipments had started for Honolulu with full cargoes of coal, but it was not certain when they would arrive. Some transports were to arrive in a day or so and there was no coal to be bought. Consul Haywood explained his predicament to John Ena, of the Inter Island Steamship Company. That gentleman realized fully how serious it would be to have the transport ships tied up here on account of lack of coal, and he gave the assurance that as long as there was one bit of coal in his possession, it would be cheerfully turned over to the United States in her hour of need.

The service performed by this patriotic citizen was reported to the State Department by Mr. Haywood.

## The Name Plate.

Commodore Beckley, of the Kinaiu, has in his possession, the name-plate of the wrecked four-masted schooner Nomad, found off the Kohala coast of Hawaii. It was secured by E. A. Fraser, agent of the Wilder Steamship Company at Mahukona, from the natives who removed the board from the wreck.

Commodore Beckley deemed it advisable to bring the name-plate to Honolulu and exhibit it to United States Consul Haywood, in order that this official might be convinced that the wreck was none other than the schooner Nomad. Unless Mr. Haywood desires to keep the name-plate in his possession Commodore Beckley will preserve it.

The name-plate is a board about ten feet long and one foot and a half wide. The letters were carved in the hard wood and then gilded. When taken from the hull of the ship the entire piece was covered with barnacles gathered during the year or more that it has been drifting about in the North Pacific waters.

## DEWEY ON ENGLAND.

LONDON, Jan. 25.—Hamilton Brown, editor of the British Realm, received a letter today from Rear Admiral Dewey, dated Manila, December 18, in response to a request for an expression of opinion on Great Britain's imperial policy. The Admiral says:

"After many years of wandering I have come to the conclusion that the mightiest factor in the civilization of the world is the imperial policy of England."

The Honolulu Iron Works has the construction for the setting up of the bridge. The contract for masonry has been let. Mr. Desky expects that the bridge will be open for traffic in April.

## ISLAND CLIPPERS.

SAN FRANCISCO, Jan. 19.—The bark Andrew Welsh and the barkentine Planter were towed in through the heads this morning almost side by side. Twenty days ago the two vessels sailed out the harbor at Honolulu almost side by side, and the first day at sea lost sight of each other. When daylight came this morning the two vessels were close together at the lights and both were heading for the harbor.

## OUR REPUTATION

For fine watch work is widespread; but we wish to impress the few who may not yet be in line, with the necessity of sending their watches, when out of order to us directly; and not first allow every tinkler to ruin the watch, after which, send it to us for proper repairs.

The Cost is always more to you, after such treatment; ever so much better to send it right down to us, for we allow nothing but perfect work to leave our workshop.

You will be surprised, too, how much cheaper it will be, and how much more satisfactory to you.

Watches are securely packed in wooden boxes, and returned in the safest possible manner.

Did Not Want to Go to Prison  
Opium Case—Shows—Dry Weather—Snow on Haleakala.

MAUI, Feb. 4, 1899.—Wailuku Calumne seem to have horror of the jail. Sunday, January 29th, a Mongolian named Alana was arrested in his house charged with having opium in possession. Just after the arrest had been formally made, and while the policeman's back was turned for a moment, Alana stabbed himself in the abdomen with a knife inflicting such a severe wound that he has been in Maimail Hospital for a week under the care of Dr. Weddick. He, however, was able to appear in court this morning.

The "Kickapoo Show," which has been doing "good business" in Lahaina, is expected in Wailuku to-day or Monday.

The "cinograph man" who was "billed" to exhibit in Wailuku during the past week did not put in an appearance as advertised.

Mr. and Mrs. C. H. Allen and party (tourists) who visited Haleakala last week report that recent south winds have torn the iron-roofing completely off "Crateridge," the little stone house on the summit.

During the week, Mrs. Lewis, the wife of Rev. J. M. Lewis of Wailuku has been seriously ill. A baby daughter was born to the Lewis Monday, Jan. 30th.

Maunaloa seminary has now fifty-four pupils enrolled. It will be possible to accommodate but a few more girls until the new buildings are constructed back of Sunnyside parallel to Grove Ranch, Paia.

John Kanakamaki, the well-known clerk in the office of Tax-Assessor W. T. Robinson of Wailuku, has been very sick with hemorrhage of lungs.

Jan. 20th, the three-masted schooner "Jenny Ward," Christiansen master, arrived in Kahului, 16 days from San Francisco with a general cargo for the Haila, Paia and Alexander and Baldwin Companies.

The bark "Nouanu" now loading sugar for New York will probably get away the middle of next week.

Weather:—Very dry indeed—kama-alas are prophesying a dry winter. South wind though not heavy. Snow on the summit of Haleakala the early part of the week, and thunder and lightning on its western slope the afternoon of the 1st.

### ESTATES AND TITLE.

An American Woman Who is  
Now Called "Lady"

In the Advertiser of Saturday appears an extract from the "surv" poetry of Mr. J. Hooker Hammersley. Miss Price, of Albany, afterward the Duchess of Marlborough, and now the wife of Lord William Beresford, the brother of Lord Charles, married for her first husband a Mr. Louis Hammersley, a cousin of Mr. J. Hooker. By a curious will he left, on his death, the income of an enormous estate to his wife, with power to dispose of the estate on her death. He provided, however, that should Mr. J. Hooker Hammersley have a son, the estate should go to that son on her death. For many years no son was born, but after the marriage of Mrs. Hammersley to the Duke of Marlborough, a son was born, is now living, and will probably receive the great estate. In a will made some years before his death Mr. Louis Hammersley provided that if his widow married again, she should forfeit the right to the entire income. He relented before his death, and his change of mind enabled the handsome widow to restore the Blenheim palace, become a Duchess, and finally settled down with the nominal title of "Lady" Beresford only, as her husband has no actual rank.

### OLD LIEN CASE.

Objection Filed By the Owner  
of a Big House.

H. E. Cooper, defendant in the suit of J. A. Hopper vs. G. W. Lincoln and H. E. Cooper, by his attorneys, J. A. Magoon and R. D. Stillman, has filed an objection and protest to the execution of an issuance against him for enforcement of a judgment of \$341.98, and further protests and objects to an order of sale of any description of the property described in statement of mechanic's lien.

The breach of promise of marriage suit of Ermina Da Silva vs. J. A. Nunes was adjudged Saturday. The suit was for \$5000. The jury found for the plaintiff in the sum of \$250 damages. Such amount with costs was adjudged her.

In the matter of the estate of Kealo-hakalani, a minor 10 years old, John Pae, guardian, has applied to the court for permission to sell the estate of the child, which is some very valuable property on Emma street. Frank K. Archer has on oath deposed that Mizele, with whom the child lived until a month ago, believes that the property should not be sold; that he believes that the guardian, John Pae, is using the income from the minor's estate for his own purposes, therefore F. K. Archer requests that John Pae, guardian, be instructed to file his accounts and that

his application for selling the estate be denied.

In the chambers suit of P. J. Tong vs. Wm. White et al. Wm. White, of the defendant, alleges that the complaint secured on him was not a true copy of the original petition; that it was designed to mislead the court, and for that reason he moves to quash the same.

### Lazarus Estate.

The defendant, Alexander Lazarus, has filed an answer to the petition of his mother, Kestemakie Lazarus, setting forth that he purchased the land in question with his own money; that the Royal Patent was made out inadvertently in the name of Joseph Lazarus, who, to correct the error, transferred the property by deed and that the petitioner does not possess the right of dower therein.

## CITY OF PEKING

Struck in Eastern Waters  
by Japanese Gunboat.

Damage Will Cause Delay of at  
Least Five Days—Prompt  
Action—Repairs.

The City of Peking, due to reach Honolulu from Yokohama on February 11, will be five days late in her arrival here. The delay is occasioned by damages sustained by the Peking in a collision with the Japanese gunboat Amagi on January 16.

The collision took place off Ichihaki, in the province of Kii. At the time it was very dark and the two vessels could not distinguish one another. The Amagi struck the Peking amidships, destroying about 50 feet of rails and knocking overboard No. 3 lifeboat hanging on the port-side davit. It is said also that three plates were injured. The alarm was immediately given on the steamer and all necessary preparations were made for saving life. The life belts were distributed among the passengers.

The Peking managed, however, to enter Kobe the following morning and proceeded on her way to Hongkong in the evening. Upon arriving in that port the steamer went on the dry dock and underwent repairs.

The damages to the gunboat had not been precisely ascertained, when the America Maru sailed from Yokohama. It is believed that they were very light. It is stated that sometime after the accident occurred the Amagi entered Koshimoto harbor and immediately despatched a telegram to the Harbor office, Kobe, inquiring the other vessel's name and her damages. At the same time the Kobe agent of the Pacific Mail Steamship Company, also called at the office, so that the names of the ships in the collision were simultaneously obtained. Capt. J. Tremaine Smith is master of the City of Peking.

## Another Victim Cured.

What a Honolulu Lady Has to  
Say of Doan's Backache and  
Kidney Pills.

Many people are skeptical about taking so-called patent medicines, but a few testimonials as given below ought to convince the most skeptical that all remedies are not without merit.

Home testimonials certainly must be accepted as being first class and positive proof of the curative features of a remedy. Watch this space for a series of testimonials of people well and favorably known.

Mrs. Grace Dodd, 524 Young street, says: "I was troubled with enlargement of the liver; suffered severe pains in my right side and lame back for two years. After consulting a local physician and taking medicines of all kinds and failing to get relief I purchased a box of Doan's Kidney Pills and soon was relieved of the severe pains, could enjoy a good sleep and am satisfied the Pills cured me."

Doan's Kidney and Backache Pills can be obtained at the Hollister Drug Co., Ltd., Fort Street, at 50c a box.

### CHAMBERLAIN'S COUGH REMEDY ALWAYS PROVES EFFECTUAL.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for at so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and, like the writer, be benefited.—From the Glenville (W. ## WITH Y. P. S. C. E.

Eighteenth Anniversary is  
Observed in this City.

At Central Union Church—Papers  
Are Read—Origin and Mission,  
Work Done.

During the meeting of the Young People's Society of Christian Endeavor in Central Union last evening, several short papers were read commemorating the eighteenth anniversary of the founding of the society at Portland, Me., in 1881, by Rev. Francis Clark.

The first paper, read by Prof. French, told of the founding of the first society, and the second, read by Miss Kate Kelley, told of its purpose.

Dr. Clark finding that many of his young converts were in need of help that could not well be given by the older members of his church, planned the organization of a society whereby each might help the other. "To help one another and to help others, to save young people, and to train them to work for Christ," has ever been the uppermost thought of this grand organization. That it has, and is doing this, is demonstrated by the millions of its adherents and supporters.

These papers were followed by others, telling of "The Conventions," "The Forming of the First Society on the Hawaiian Islands," and "The Growth of the Organization in the Different Countries."

In the first convention, held in 1882, but six societies were represented, while the last one, held at Nashville, Tenn., in 1898, represented 54,191 societies, with a total membership of over three millions. The next convention is to be held in Detroit, Mich., and the one in 1900 in London, which, no doubt, will eclipse all former ones.

The first society outside the United States was organized in Honolulu in 1884, by Rev. J. A. Cruzan. A few charter members are still in existence. There are now seventeen societies on the Islands.

The growth in other countries has been very rapid, even "Darkest Africa" numbers her societies by the hundreds. Thus it is seen that the whole earth has been girdled by this band of workers and no society ever organized can number as it does, millions of the best and brightest young people of all nations.

### MORGAN CITY IN.

Has a Heavy Cargo for the Forces  
in Manila.

The Morgan City, the second of the United States transports to arrive during the week, docked at the old fish-market wharf at sundown on Saturday. She will continue on her journey to Manila at 10 o'clock tomorrow morning.

The Morgan City left San Francisco on the evening of January 26, not quite an hour after the departure of the Scandia. She carries a small passenger list, consisting mostly of officers' wives. There are some nurses and undertakers aboard. There are no coffins, the transport Ohio having this cargo. About 2600 tons of general cargo is aboard the Morgan City for the American troops in Manila.

Lieut. T. M. Moody, of the Twentieth United States Regulars, is the quartermaster in charge. J. G. Dillon is the captain, James H. Rand, first officer; J. N. Ansell, second officer; W. J. Maloney, third officer; W. H. Kelley, chief engineer; L. N. Green, first assistant engineer; S. Beede, second assistant engineer; B. Gorman, third assistant engineer; G. H. Edwards, purser, and E. M. Hill, assistant purser.

The Morgan City passengers included: Col. and Mrs. McCaskey, Chas. McCaskey, Maj. and Mrs. Miller, Maj. and Mrs. Irons, of the Twentieth Infantry; Maj. Canton, Washington Volunteers; Capt. Patton, Fourteenth Infantry; Lieut. Rutherford, Fourth Cavalry; Dr. Rand, Lieut. Geiger, Dr. and Mrs. Kirkpatrick, Lieut. McNulta, Lieut. and Mrs. Estes, Twentieth Infantry; ten postal clerks, five undertakers, five Red Cross nurses, the wives of fifteen officers now in Manila.

The Morgan City brought 20 orders for the Scandia. Gen. Wheaton, in command of the Twentieth Regulars, deemed it best that the Scandia, which is a much faster vessel than the Morgan City, should proceed on to Manila in all possible haste, because of the apparent serious condition of affairs existing there. The Scandia will arrive in Manila eight or ten days in advance of the Morgan City.

Gen. Wheaton is a lieutenant colonel in the regular army and is the third in line for a colonelcy. He is not a West Point man.

Lieut. Moody states that the Senator and Ohio were scheduled to leave San Francisco about this time. They will bring the Twenty-second Infantry. Two more regiments of regulars will follow, making in all, a total of six regiments of regulars for Manila.

### JURY PANELS.

Citizens Who Will Be Called for  
February Term.

The persons named in the panel to appear as jurors at the February term of the Circuit Court of the First Circuit, beginning on Monday, February 6th, are as follows: Hawaiian—J. Nalau, Thomas C. E. Miller, C. H. Clapp, Louis Marks, J. Schuch, Willard E. Brown, George Angus, Arthur B. Wood, H. A. Parmelee, F. J. Kruger, Carl Du Roi, D. F. Thurman.

Five of these men will be unavailable. W. H. Thurman has been appointed Captain of Police. James N. K. Keola is clerk of the Circuit Court, Second Circuit. Keakua is reported dead. D. B. Smith is on Hawaii and W. A. Love is in the United States.

### Lord Charles' Departure.

The departure of the America Maru from the Pacific Mail dock on Saturday morning will be long remembered by Lord Charles Beresford. The distinguished Briton went on board decorated with carnation leis. He was escorted by friends who bade him adieu and a bon voyage. The Government band gave an excellent aerodrome, which Lord Charles thoroughly appreciated.

### Registry Legislation.

A member of the shipping house of J. J. Moore & Co., of San Francisco, writes vice-President Ena of the Inter-Island Company, to the effect that there is much hope that the Senate will amend the navigation bill so that it will include all ships having a Hawaiian register, permanent or temporary, prior to December 25.

### Has Entirely Recovered.

Commodore Beckley, of the Kinau, reports that Princess Kaiulani has completely recovered her health. She is now at the Waimea home of Col. Sam'l Parker. She and her party intend returning to Honolulu by the next Kinau. Col. and Mrs. Parker and Gov. Cleghorn will return also.

### Von-Hamm-Young Company.

The capitalization of the Von Hamm-Young company is \$100,000, divided into 1,000 shares at \$100 each. Alexander Young is president, Conrad Von Hamm is vice president and auditor, and Archibald A. Young is secretary and treasurer. A general merchandise and commission business will be carried on by the concern.

**Chlorodyne**  
Original and Only Genuine.  
Coughs,  
Colds,  
Asthma,  
Bronchitis.

Dr. J. Collis Browne's Chlorodyne

Vice-Chancellor SIR W. PAGE WOOD stated publicly in court that DR. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORO-DYNE; that the whole story of the defendant, Freeman, was deliberately untrue, and he wanted to say it had been sworn to. See The Times, July 15, 1904.

Dr. J. Collis Browne's Chlorodyne

Is a liquid medicine which assuages PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. It is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, reports that it acts as a CHARM; one dose generally sufficient.

Dr. Gibbney, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

Dr. J. Collis Browne's Chlorodyne

Is the TRUE PALLIATIVE in  
Neuralgia, Gout, Cancer,  
Toothache, Rheumatism.

Dr. J. Collis Browne's Chlorodyne

Rapidly cures short attacks of

## Drink PURE WATER.

If the advice given in those three  
words is heeded, good health will fol-  
low. City water is not good for many  
reasons, principally, because it is con-  
taminated with vegetable and putrid  
matter of all descriptions. A simple  
analysis shows this to be a fact.

## EXERCISE

Our doctors are busy treating pa-  
tients who are suffering from com-  
plaints, more especially malarial dis-  
orders, which will be materially bene-  
fitted if they drink a water that is pure  
and possesses curative features, as does  
Bartlett Spring Water.

## DUE

Ask your family physician about the  
water, and if he is honest he will en-  
dorse its use.

All who have drank the water speak  
in the highest of terms for it.

This climate demands the use of  
such a water and you cannot afford to  
be without it.

## VIGILANCE.

We will serve free of charge a glass  
of this wonderful natural Spring  
water at our Soda Counter to all who  
care to come and test its virtues. We  
deliver the water to your home in case  
lots at \$6.50 for 50 pints, \$9.50 for 50  
quarts.

## AN 1899 BLOCK

Elite Building to Grow Up On  
Hotel Street.

ENTERPRISE OF JAS. STEINER

Modern Structure in Every Way.  
Store of Hart & Co.—Offices  
Hall in Third Story.

Contractor C. H. Patzig will start his men at work on Jas. Steiner's new Elite building, within a few days now and it will not be many months before the appearance of Hotel street will be greatly improved by the erection of a magnificent three story business block.

The front of the Elite building will be on Hotel street, turning on Adams Lane. It will be of gray pressed brick and terra cotta and will be highly ornamental in Italian Renaissance. "Elite 1899" will be incorporated on the main cornice of the center part of the building. At either end will be two highly ornamental pavilions crowned by an elaborate finish in terra cotta.

The store front will be modern, such as is found in the large cities in the States. Extra large plate glass windows will be inserted. Ordinarily heavy iron columns are used for the fronts of the larger buildings. This has been done away with by the architect, so that the store front will not be too heavy. The ash of this front will be constructed of steel.

The store will be entered through a large vestibule, 17 feet wide and 8 feet deep. On the Ewa end will be the entrance to the upper stories and offices. This vestibule will be 8x8. Both vestibules in the building will be laid in mosaic tiles.

The entire first floor will be given up to the Elite restaurant. It will be handsomely finished inside with panel wood ceiling. A space of ten feet, running the full length of the building, which is 87 feet, will be devoted to the culinary department. This will be partitioned off from the main restaurant by means of a panel hardwood partition. This part will be so ventilated that no odors from the cooking will be detected.

The entrance to the basement will be from the kitchen. The basement will be given up to storage purposes.

The second story will contain twelve offices, all opening out on wide and commodious corridors. The corridors are finished in panel wainscoting. The offices will front on Hotel street and mauka. They will be well lighted by means of large plate glass windows. The ventilation will be excellent.

A large meeting hall will take up the third floor. The room is 15 feet high and is ventilated by means of three ornamental domes each twelve feet in diameter. The ceiling will be finished in paneled wood and the walls in panel wainscoting. It will be a model society room.

The sanitary arrangement of the building is excellent. Modern bath and toilet rooms will be located on all floors.

The building will be of brick and steel construction throughout. The principal tenant will be the growing business of Hart & Co., Ltd.

O. G. Traphagen made the plans for this new block.

## AIMED AT ROBERTS.

WASHINGTON, Jan. 23.—Representative Clarke of Iowa, today introduced a bill providing that no person living in or practicing polygamy shall be eligible to be a member of either house of Congress, nor shall such person be permitted to hold a seat therein. It is further provided that the evidence of polygamy shall be of whatever nature that establishes the fact. Another provision makes the act take immediate effect.

## Children Were Stowed.

TACOMA (Wash.), Jan. 20.—The youngest stowaways ever found in a ship for a Pacific ocean voyage were

discovered in the ship C. F. Sargent, just arrived from Honolulu. They were brother and sister, one two and the other three years old, and were left there by their father. They had been in the hold two days with nothing to eat when discovered and were weak. The parents were German emigrants who went to Honolulu in search of a new land.

The mother died shortly before the departure of the vessel and the father stole aboard the ship in the night and left his babies in the hold.

## WIRE TO DAWSON.

OTTAWA, Ont., Jan. 23.—Immediately on the return of the Premier from Washington the Cabinet will consider the advisability of asking Parliament for an appropriation to build a telegraph line to Dawson, N. W. T., as a Federal work. At present the Government telegraph system extends to Quesnelle in the Cariboo district of British Columbia.

From Quesnelle to Telegraph Creek and thence to Dawson the distance is about 1200 miles. Competent electricians have just reported to the Government that the line would cost \$750,000 to construct and equip.

## Gained Forty-eight Pounds.

"I had a strong appetite for liquor, which was the beginning of the breaking down of my health. I was also a slave to tea and coffee drinking. I took the gold cure, but it did not help me."

This is a portion of an interview clipped from the Daily Herald, of Clinton, Iowa. It might well be taken for the subject of a temperance lecture, but that is not our object in publishing it. It is to show how a system, run down by drink and disease, may be restored. We cannot do better than quote further from the same:

I RETIRED TO CITY LIFE.

"For years I was unable to do my work. I could not sleep nights or rest days on account of continuous pains in my stomach and back. I was unable to digest my food. Headaches and painful urination were frequent, and my heart's action became increased. I left my farm and retired to city life, for I was a confirmed invalid, and the doctors said I would never be well again."

"Soon after I happened to use four boxes of Dr. Williams' Pink Pills for Pale People and since then I have been free from all pain, headache and dyspepsia. I eat heartily and have no appetite for strong drink or tea or coffee, and feel twenty years younger."

"My weight has increased 48 pounds. I cannot say too much for Dr. Williams' Pink Pills and claim that they have cured me."

## "JOHN B. COOK."

Subscribed and sworn to before me this sixteenth day of February, 1897.

A. P. BARKER,  
Notary Public.

To people run down in health from whatever cause—drinking or disease—the above interview will be of interest. The truth of it is undoubted as the statement is sworn to, and we reproduce the oath here.

The name and address of the subject of above interview is John B. Cook, of 208 South 5th Street, Lyon, Iowa.

Permission has been granted Fred Harrison to erect a single story storehouse in Kekuananua, above Allen street; E. Peck, to construct eleven single story cottages on the makai side of Vineyard street, and Ching Lum, to build a two-story and three one-story dwellings on the makai side of Vineyard street.

## PAIR OF LIONS

The Original Owner Has  
Them in Charge Here.

All the Way From Africa—Are  
Young Yet—Grown Sires  
Said to be Terrors.

Two savage growling lions are pinned up in the old fire station building on Union lane. They were brought to the city on the Moana and belong to Mr. and Mrs. A. James, who are on a tour of the country with them.

"There is no likelihood of the animals' escaping, for Mr. James prizes his pets too highly to take chances. At present they are confined in a small but stout cage, but today will be turned into a larger cage running along the entire length of the building. Here they will be exhibited to the public."

The lions are certainly the best specimens ever brought to Honolulu. They were captured by Mr. James in what is known as Portuguese Africa, located on the Western Coast, when they were seven or eight weeks old. They now answer to the names of Lobongula, who was an African king and Lioness Suzal, the name of an African tribe.

"A friend and myself, accompanied by a dozen kaffirs were out hunting on the plains," said Mr. James yesterday. "We encountered two lionesses with five cubs. We killed the old ones and the kaffirs captured the young ones and carried them back to the city. I selected the finest pair in the lot and sold the remaining ones in Africa for one hundred and twenty-five pounds."

"They are good specimens of the famous African black mane blood and are now eight months old. They will continue to grow until they attain the large size. It will be five years before they have attained their full growth."

Mr. James has spent several years in Africa and has many interesting stories to tell of that country. He says that lions are quite numerous and are very bold. In the town of Beira, where he lived, are they particularly dangerous. A butcher secured a bullock from Madagascar and hung it up over night. It was carried away by some lions. These same animals, it is believed, returned one week later, and failing to find a bullock, carried away a kaffir whom they caught on the outskirts of the city. Mr. James says that the younger lions travel together. Their prey consists mostly of antelope. It is the older lion who seeks his own food and he is desperate. These animals will attack a man in broad daylight.

In speaking of Portuguese Africa, Mr. James says that it is almost impossible for a white man to thrive there. Eighty carpenters were imported last year to construct a bridge over a stream between Beira and Salisbury. Only three of these men survived, the bodies of the others being buried near by the bridge they came to build.

Mr. and Mrs. James will leave for California with their lions within a week or two.

## TOOK A SEVERE COLD AFTER THE BIG FIRE.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B.
